7. Read the passage carefully and answer the questions that follow:-[4]

Fuel is a material that is burned in order to get heat and light and also to generate power. The process of burning is a chemical reaction. A material combines with oxygen from the air and gives out energy. The energy is given out in the form of heat and light. Fuels can also be classified as solid, liquid and gas. Wood was one of the first fuels used by man. It was the easiest and the cheapest form. After wood started becoming scarce, it was replaced by coal. Coal contains a high percentage of carbon. Carbon is the most important ingredient in most fuels. Fuels with a high percentage of carbon burn evenly and with a hot flame.

**Questions:-**

- a) What is produced with the burning of the fuel ?
- b) Why was wood replaced by coal ?
- c) How does fuel with a high percentage of carbon burn ?
- d) What is the source of energy ?

OR

Write a précis of the following passage and give a suitable title to it :

Meditation is a practice that focuses the mind on a specific object, thought or activity to train attention and awareness. It has been shown to have many benefits for physical and mental health, including reducing stress and anxiety, improving sleep, and increasing feelings

of calmness and relaxation. Studies have also shown that meditation can have positive effects on the brain. It helps in learning, boosts memory and surely decreases stress. It is never too late to start meditation. To do that one can use a good app or join a meditation group.
